- * Frequency of Board meeting and Academic advisory Body

Once in six months

- * **Organisation chart and processes**

The Principal of the College is appointed by the Society and serves as a link between the Society and the Staff and between the Society and Students. He will be held responsible for the smooth conduct of Institution leading to the realization of the objectives for which the college has come into being.

The Academic Coordinating Officer assists the Principal.

- **Nature and extent of involvement of faculty and student in academic affairs.**

The Principal holds periodical meetings with the teaching staff and the class representatives regularly to review the academic work accomplished by the respective members of the staff and also to have the first-hand information about the performance of the teachers in the classrooms. Feedback is obtained in the normal course from the students about the difficulties encountered with regard to learning any particular subject. This gives us a fair idea of as to how the relevant information can be fed to the teachers concerned to fill the gaps. Based on the feedback, measures are initiated to improve the quality of teaching and to give the best possible education to the students admitted to this college.

Summer Project

As an integral part of the curriculum, every student takes up work on a project in an organization with a view to facilitate complimentary learning and greater understanding of real life organisational situations. The duration of the training ranges from 6-8 weeks. The project guides from among the faculty and provide necessary guidance to the students. The projects are evaluated at the end of the fourth semester by a panel of university examiners on the basis of a report, a presentation and a viva-voce.

Meet the Industry

To foster a closer relationship with the industry and to enable the students to keep abreast of the current practices of management, the department arranges a series of guest lectures and seminars in every Semester, given by Managers and Eminent Members of the Industry. The experience and knowledge that they share with the students provide a perfect supplement to the conventional academic education that the university provides.
